CIS CONFIGURATOR

Selling customizable products made easy!

CIS Configurator is a web-based quote management application that is ideal for organizations who want to automate the quoting process for its internal and external sales personal, resellers, dealers and customers.
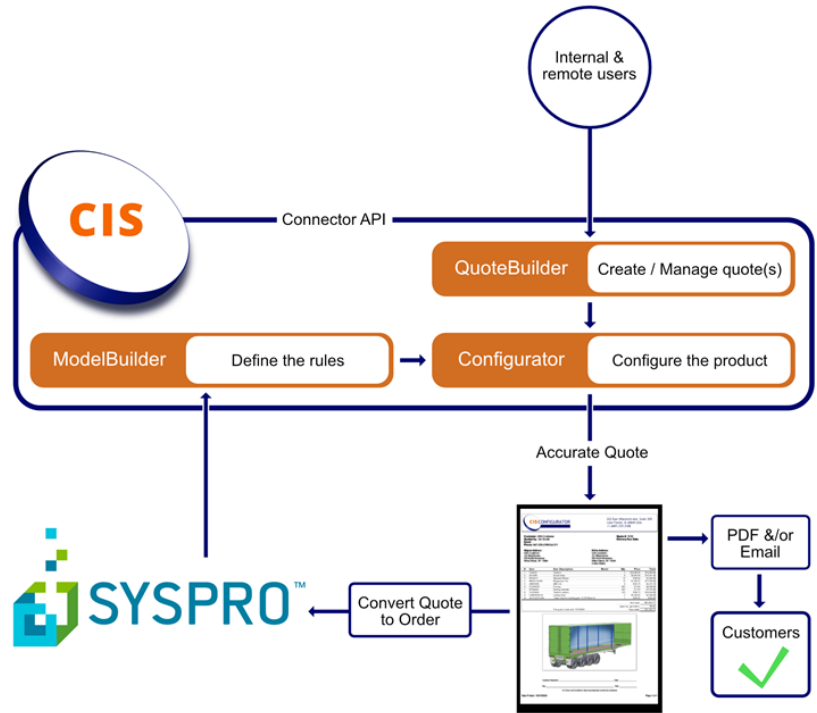

Quotes containing configured and stock items are created, edited, revised and copied quickly and all stored in one centralized location.

- **Configure Price Quote**

- **Cloud or Client Server Deployed**

- **Rules based Configurator**

- **Quotes generated in minutes**

- **Centralized lookup for all quote activity**

- **Professional quotes in PDF format instantly**

- **Uses product knowledge stored in CIS**

CIS CONFIGURATOR

Rules are easy to add and maintain!

CIS Configurator is connected to SYSPRO and pulls the items into the ModelBuilder, allowing your Product Expert to create complex rules!

Questions and Answers are created and conditioned using Exceptions and Relationships, which can be added to a spreadsheet and imported for product rules and future maintenance.

- **Items flow from SYSPRO to CIS**
- **Import Questions, Answers,**
- **Rules & Dependencies**
- **Assign Graphics to Answers, Static images or Transparency's Supported**
- **Bills Of Materials if required**
